

# PROTECTION FOR YOUR SWEETHEARTS

Do you know just how much our daily food is under the influence of environmental poisons and chemical additives?

Our pets are worst affected. Refuse artificial flavors, scents and flavor enhancers to stop misguiding their instincts.

IN NATURE WE TRUST

# DEFICIENCY OR ...

# QUALITY

## LEGAL IS NOT ENOUGH!

Do you assume that all producers of pet food exactly respect the law? In reality that's what we should be really afraid of!

**DID YOU KNOW** that the legislator allows the use of thousands of chemicals and horrible inferior waste-like raw materials? For persons who love their pets, these laws are absolutely insufficient, in fact they are a tragedy.

**DID YOU KNOW** that plenty of chemicals are legally undeclared even when they've been added by the producer for certain reasons?

**DID YOU KNOW** that flavor enhancers can trick the nerve system and pretend they are consuming a delicacy even if it was mainly made of filler, artificial flavors, and chemical color? Caution: legal bluff package!

If you love your pet, you'll never trust any advertisement promises anymore.

**XX% "meat and side products.** And what are the "side products"? Feathers, hair, skin, claws, bones?

**What are "plant side products"?** Leaves and wood! "Meat and bone meal": Who knows what it really is?!

**Turbo-heating, Gamma rays!**

**Thousands of chemicals:** pure overloading!

**EU additives:** anonymous danger!

**Insects in all stages of development (!!!)**

**Sweet, salty, colored, preserved, with addition of scent, artificial flavors, stabilizers and flavor enhancers.**

**ALL THAT IS ABSOLUTELY LEGAL\***

\*) the legal requirements may vary according to local legislation, partly they contradict the applicable EU laws
